

SOLUTIONS WITH VISION

About us

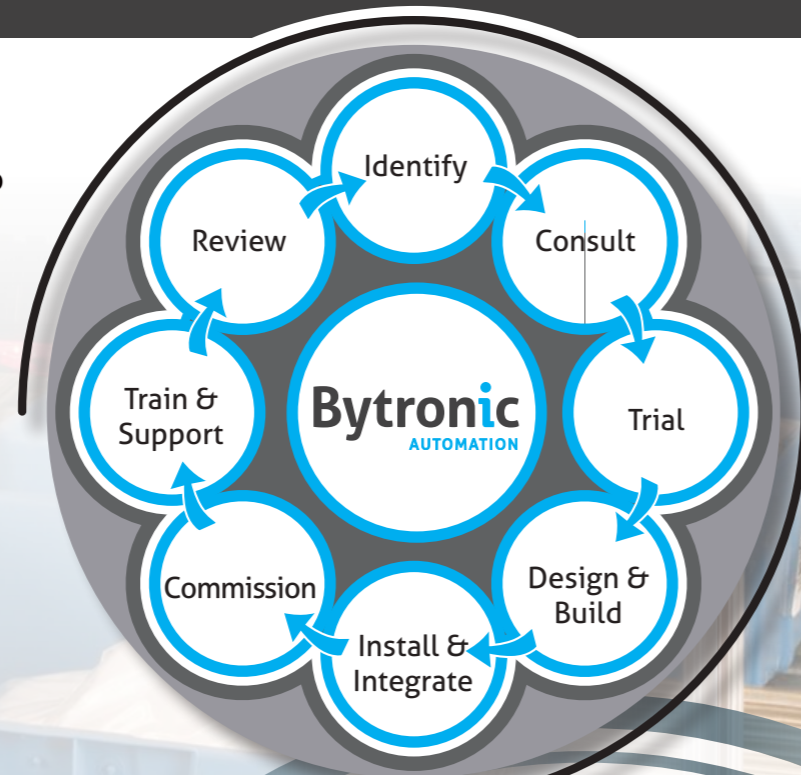

We are specialists in providing machine vision and intelligent manufacturing systems that guarantee quality and improve performance

Founded in 1997, Bytronic is now the leading independent expert in designing and implementing innovative manufacturing systems for many of the world's largest companies. We bring unparalleled specialist skills and market leading technology together for the best possible integrated solution.

Our approach

At Bytronic we work with our customers to develop a true business partnership.

We manage the entire project from problem definition through design and test to seamless integration with your operations, minimising disruption to your business.

Customer value

Platinum Partner System Integrators for **COGNEX**

Our Products & Services

System Integration

- PLC Programming
- SCADA Systems
- ERP/MES Interfacing
- Database Development
- Software Driver Development
- Industrial Communications Protocols
- Paperless Systems
- Industrial Networking

Machine Vision & ID

- Inspection *High speed quality verification*
- Measurement *Automated non-contact gauging*
- Validation *Confirm your code is correct*
- Verification *Grade the quality of your code*
- Trouble-shooting *High speed camera recording systems*

Factory Solutions

- Automated Machine Setup
- Allergen Management
- Paperless Process™
- Factory Information Tools
- LineView™
- 360° Code Reading
- PackCheck™
- CheckIt™

Our Customers

From FMCG and pharmaceuticals to steel foundries and the automotive industries, we have implemented successful systems worldwide.

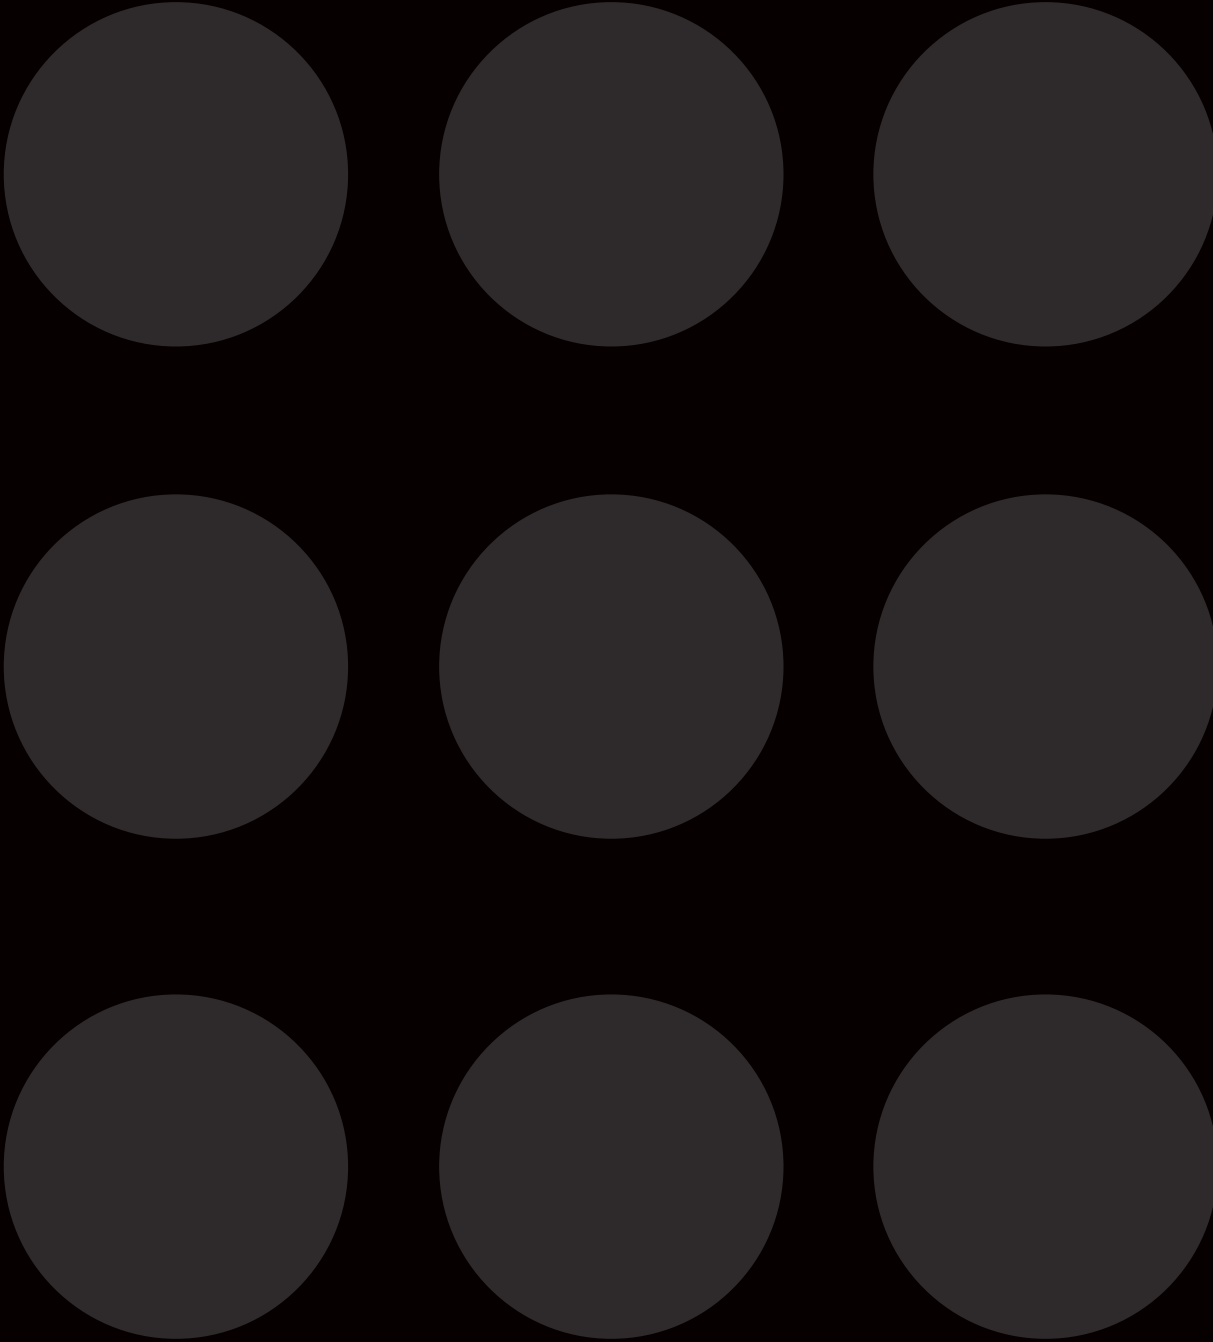

We build long-term partnerships with our clients, working with them to achieve manufacturing improvements throughout their business.

Integrating a key component vision system into a new factory build on time and on budget can be challenging, but Bytronic delivered a flawless integrated solution. Through communication, hard work, engineering knowledge and support, Bytronic got the job done!
